Important information

This TMD sets out the key attributes, target market, distribution conditions, review periods and triggers for the product. This TMD forms part of the product design and distribution arrangements of the product.

This document is **not** a Product Disclosure Statement, and is **not** a summary of the conditions, features or terms of the product. The terms and conditions of cover provided under the product are set out in the PDS, along with any Policy Schedule (if applicable). Consumers interested in acquiring this product should carefully read those documents before deciding to purchase, or to continue to hold the product.

This document does not take into account any consumer's individual objectives, financial situation or needs. If a consumer has any questions about the product, please contact TAL Life.

The product is an insurance Policy, not a savings plan, which means no financial benefit is payable from the Policy unless claim eligibility conditions are met.

Distribution conditions

Distribution conditions: Personal advice	<p>This product is not to be distributed through personal advice.</p>
Distribution conditions: General advice	<p>The following distribution conditions apply with respect to the provision of general advice:</p> <ul style="list-style-type: none"> • Distributors must be authorised by TAL Life to distribute the product. • Distributors may only distribute this product to consumers under general advice. No personal advice is to be provided to consumers at any point in the distribution. • Distributors must obtain information required to determine whether the consumer is eligible for the product and must not permit a consumer to be issued the product if the consumer does not meet the eligibility criteria (provided that the consumer has provided all relevant information honestly and completely). • Distributors must draw the consumer's attention to the key features of the product, including an estimate of the applicable premium (based on the consumer's requested product Benefits), to enable the consumer to determine if the product is likely to be consistent with their objectives, financial situation and needs. • Distributors must have in place processes in relation to call scripts, training, monitoring and quality assurance designed to ensure the appropriate distribution of the product (call centres only). • Distributors must make available a PDS of the product to consumers.
Appropriateness of the distribution conditions: General advice	<p>The distribution conditions will result in the product being issued to consumers who are likely to be in the target market because:</p> <ul style="list-style-type: none"> • the requirement for Distributors to determine whether a consumer is eligible for the product and not permit consumers to be issued the product if they do not satisfy the eligibility criteria means the product cannot be issued to consumers who are not eligible for the product; and • the requirement for Distributors to draw the consumer's attention to the key features of the product, including an estimate of the applicable premium (based on the consumer's requested product Benefits), is likely to prompt a consumer to either proceed or not to proceed with an application based on their financial capacity to afford the applicable premiums and determination of whether the product is consistent with their likely objectives, financial situation and needs.
